作为预防措施，特鲁多也将开始自我隔离14天。由于尚未出现任何症状，医生建议他无需进行新冠病毒检测。

//

当地时间3月12日，加拿大总理特鲁多的妻子确诊感染新冠病毒。

在特鲁多办公室当天发表的声明中可以看到，特鲁多的妻子索菲（Sophie Grégoire Trudeau）将立即开始隔离，她目前有轻微症状但情况稳定。

声明还说，作为预防措施特鲁多也将开始自我隔离14天。但由于尚未出现任何症状，医生建议他无需进行新冠病毒检测。医生还表示，在近期曾和特鲁多接触的人并没有风险。

Following medical recommendations, Sophie Grégoire Trudeau was tested for COVID-19 today. The test came back positive. Also following medical advice, she will remain in isolation for the time being. She is feeling well, is taking all the recommended precautions and her symptoms remain mild.

Health professionals will reach out to those who have been in contact with Mrs. Grégoire Trudeau as they deem necessary.

The Prime Minister is in good health with no symptoms. As a precautionary measure and following the advice of doctors, he will be in isolation for a planned period of 14 days. Also on the advice of doctors, he will not be tested at this stage since he has no symptoms. For the same reason, doctors say there is no risk to those who have been in contact with him recently.

The Prime Minister will continue to fully assume his duties and will address Canadians tomorrow.

Today, he held several meetings over the phone. He spoke with the leaders of Italy, the United States and the United Kingdom, he participated in a meeting of the special cabinet committee on COVID-19, he held a meeting with the Minister of Finance on the current economic situation, and he also spoke with the President and Chief Executive Officer of the Canadian Chamber of Commerce and the President of the Canada Labour Council.

Tomorrow, he will speak with the leaders of National Indigenous Organisations and provincial and territorial premiers to take stock of the COVID-19 situation and coordinate our actions to protect Canadians and limit the economic impact on the country. All orders of government will continue to work tirelessly and in close collaboration.

Canada has a well-equipped public health system to deal with the spread of COVID-19. The Prime Minister and Mrs. Grégoire Trudeau thank all of Canada's health professionals and the Public Health Agency of Canada who are doing an incredible job in protecting all Canadians. We continue to encourage all Canadians to follow their advice and recommendations. We recognize people are anxious, which is why we will work nonstop to ensure their safety and wellbeing. Since the beginning of the outbreak, all our decisions have been based on the best advice and evidence from our public health experts – that is how we will reduce the risk to Canadians.

新冠肺炎疫情正在以令人忧虑的速度在北美持续扩散。截至发稿，加拿大已有7个省发现了新冠病毒感染者，累计确诊病例150人，死亡1人。

为防范疫情进一步恶化，加拿大部分省份宣布取消并限制大型活动。不列颠哥伦比亚省、魁北克省和艾伯塔省都决定禁止250人以上的集体活动，魁北克省最大城市蒙特利尔还关闭了所有游泳池、滑冰场和图书馆，安大略省宣布全省公立学校从3月14日开始停课到4月5日。

加拿大的邻国美国也在承受着新冠肺炎疫情带来的巨大挑战。3月12日，纽约联合国总部出现了首例新冠肺炎确诊病例。

据路透社报道，菲律宾驻联合国的一名女外交官在周四被确诊感染新冠肺炎。菲律宾驻联合国代理大使Kira Azucena称：“从今天开始，菲律宾驻联合国代表团立即封闭，所有人员开始自我隔离，并将在出现症状时就诊。目前我们假设所有人已经被感染。”

根据联合国外交人员在线名录，菲律宾代表团位于曼哈顿第五大道，大约有12名外交官。

出于对疫情的忧虑，纽约市于周四宣布进入紧急状态。市长白思豪在记者会上说，目前纽约市共有95例确诊新冠病毒感染者，但这一数字下周恐将大幅增长。纽约市有29人现处于强制隔离状态，1784人自愿隔离。

他说，在紧急状态下，市长有权实施宵禁、关闭道路桥梁、停止公共交通、实行粮食配给制等措施。他同时强调上述措施只是举例，目前并未真正制定。

白思豪还表示，对抗疫情可能要持续6个月之久。相信纽约市最终能够战胜疫情，但必须保证公立学校、公共交通，以及“最重要的”医疗卫生系统的正常运转。他说，市政府将尽“一切代价”确保这三个系统正常运行。白思豪还提到当局正在研判将市政停车场改建成临时医院的可行性。

截至发稿，据多家机构实时统计，美国有超过1600人确诊新冠肺炎，超过40人不治离世。
